Angelic Chorus

Chimes or Handbells

Notes needed: 22

Teaching suggestions:

This piece contains contrasts in dynamics, texture, and range.
After the ringers are familiar with the music, suggest that they listen for these contrasts.
Focus on only one contrast at a time.

Special note:

Ringers who play very little from C-F and K-N might need help keeping their places.

$\text{♩} = 120$
