# Mountain Sunrise

for 3 Octave Handchimes with 3 Octave Handbells  
or 3 Octave Handbells or Handchimes alone

Handchimes needed: 21

Handbells needed: 19

When this piece is played with only bells or only chimes, it is possible to use fewer ringers because positions 1 and 11 do not play very often.

Notes in parentheses on the bell chart below show the various options for the assignments described below.

Suggestions for 10 Ringers:

1. Combine positions 1 and 11. (No special techniques required.)
  2. Eliminate position 11 by assigning Bb6 to Ringer 7 and C7 to Ringer 8 or Ringer 9 or Ringer 10. (Requires ability to weave or play four-in-hand—one hand only.)
  3. Combine positions 10 and 11 and assign them to a ringer who can play four-in-hand.
  4. Eliminate position 1 by assigning C4 to Ringer 3 and D4 for Ringer 2. (Requires some ability to weave.)
- (Special Note: ask Ringer 3 to play both C4 and D4 in m. 47.)

For 9 Ringers:

1. Eliminate positions 1 and 11 by combining suggestion 2 or 3 with suggestion 4.

Bells/chimes needed: 22
